

BioWorks®

BioWorks®

How You Grow Matters™

BioWorks is an industry leader in providing environmentally responsible, safe, and cost-effective solutions to the growing needs of the horticulture industry.

The following Biowork products are available from TerraLink:

RootShield® WP

RootShield® WP and Granules provide long-term root protection from the beneficial fungi *Trichoderma harzianum* strain T-22. Shield your roots against Fusarium, Pythium and Rhizoctonia. Incorporate the granular formulation into your media or use the wettable powder for drenching.

MilStop®

MilStop® kills powdery mildew on contact. Compatible with beneficial insects. It can be used in rotation with other fungicides or on its own. Pre-formulated with surfactants and leaves no residue.

BotaniGard®

BotaniGard® is a mycoinsecticide with a unique mode of action due to the active ingredient *Beauveria bassiana* strain GHA. Controls whiteflies, thrips and aphids. Compatible with IPM programs and beneficial insects.
