

Hay Baler Forage Mix

- Coastal
- Prefers moist conditions
- Highly productive and excellent palatability

For: • Hay

Hay Baler Forage Seed Mixture is a high-performance forage blend designed for high-quality hay production. This mixture contains a large portion of orchardgrass, to which Barliza Timothy and Barolex Tall Fescue have been added to enhance the feed value. A small percentage of annual ryegrass has also been added to act as a nurse crop until the stand gets established. The components of this mixture have been selected with productivity and palatability in mind to produce top-quality haylage.

This mixture comes in 20 kilogram bags and should be seeded at 30-35 pounds per acre, depending on seeding conditions and desired growth density.

***Richardson Seed forage mixtures *do not* contain endophyte-enhanced grasses.**
